

SPECIAL SEASON TURKEY HUNT FOR PARAPLEGIC HUNTERS

The special season turkey hunt for paraplegic hunters is limited to paraplegic hunters only. Under the authority of R.I.G.L., Title 20, Hunting Regulations Rule 6 (d), a paraplegic hunter is defined as an individual afflicted with paralysis of the lower half of the body with involvement of both legs. Each hunter wishing to participate must first file an application with the Division of Fish & Wildlife signed by the hunter's physician that signifies that the hunter meets the requirements to participate in the hunt, as specified by law. An assistant may accompany the hunter; however, none of the hunter's assistants are allowed to carry firearms at any time. All hunters taking a turkey must have the bird checked at one of the state designated checking stations. The bag limit is one bearded male turkey per year.
